Just Store Desktop HD-EU2

Thank you for purchasing a Buffalo Just Store Desktop External Hard Drive.

Package Contents

- Just Store Desktop USB Hard Drive
- Power Adapter
- USB Cable
- Quick Setup Guide

Installation

Connect the power cord to a surge protector or power outlet and to the Just Store Desktop. Then, connect the included USB cable into the USB port on the back of the Just Store Desktop.

Connect the other end of the USB cable to the USB port on the computer or device you are adding the Just Store Desktop to.

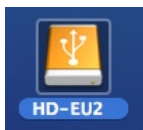

The Just Store Desktop will install automatically.

On a Windows computer, the new drive will be available in My Computer. By default it will use the first available drive letter and will be named HD-EU2. With a Mac, the new drive will appear on the desktop.

HD-EU2 (C:)

Format

By default, the Just Store Desktop is formatted with FAT32, allowing it to be used with OS X, Windows, and Linux operating systems. If you're going to use it with programs that generate filesizes larger than 4GB, such as backup or video editing software, reformat the Just Store Desktop as an NTFS drive (Windows), a Mac OS Extended drive (Mac), or an XFS drive (Linux).

Backup

Formatting disks will erase all information from your Just Store Desktop. You must backup all data before proceeding.
